NBRANDS

We can match your corporate identity! High quality cut outs of your logo can be applied to the surface of the lectern to promote your branding to customers and employees.

Features:

- High quality print and cut of your organisations logo.
- Positioned on the lectern determined by the size of the logo to ensure balance with the unit
- Helps create a positive impression to all delegates.

High quality cut outs of your logo applied to the front of the lectern

Submission Specification

We require your logo supplied as vector file formats. These formats provide us with vector shapes that are interpreted by our print & cut machinery which is used to produce all forms of corporate branding supplied by TOP-TEC.

It is vital that you check your artwork beforehand to ensure you are not only supplying us with up-to-date branding but also that your file contains vector shapes NOT an embedded JPEG. These mistakes will hold up the processing of your order and can impact your delivery schedule.

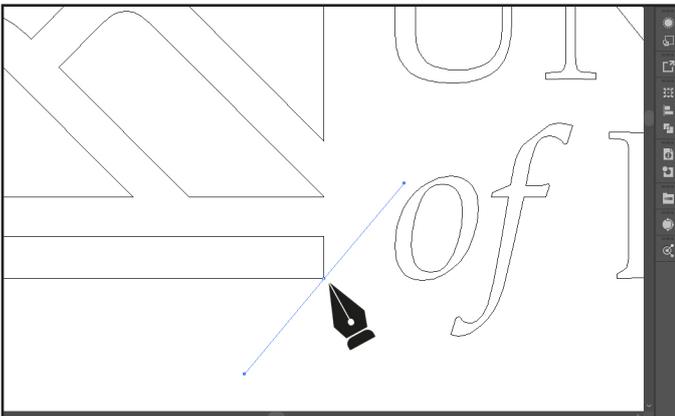

You will be guided through this process by your sales representative and our project fulfilment team. Should you have any questions or queries regarding artwork you may wish to contact them.

Acceptable File Formats

- AI (Adobe Illustrator)
- EPS (Encapsulated PostScript)
- DXF (AutoCAD's Drawing eXchange Format)

Please do not send other file types as these cannot be used.

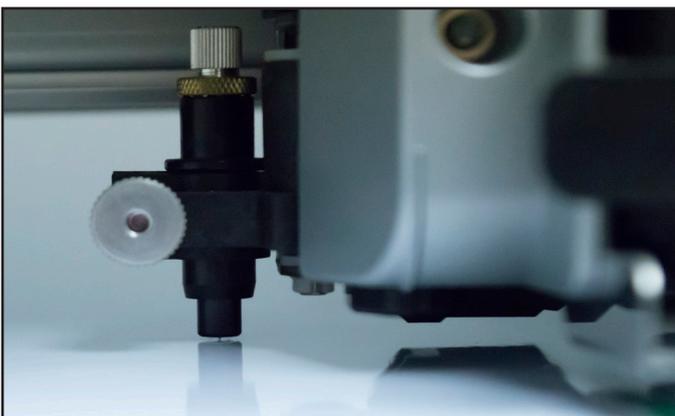

1. Artwork is set up by one of our designers

2. Artwork is printed

3. Artwork is cut out

4. Artwork is applied to our product

TOP-TEC manufactures a range of secure, AV integrated and collaborative furniture solutions to the education sector.

We provide an end-to-end service from consultation, room planning right through to design, build and installation.
