AVI TOWER 
 Gravity Height Adjustment

95kg
screens

800
400
VESA
SCREEN
MOUNT

A superb aesthetic solution for any meeting room, corridor or public area, the AVI TOWER has been designed to minimise the installation profile whilst providing significant rack / PC storage within its frame.

Each unit is supplied in 1m vertical modules, featuring 2 x 2U of rack space on each side which is accessible through non-secure front and side panels.

Features

- Up to 800x400 VESA / 95kg screens.
- Removable panels for equipment access.
- 2x 2U of rack space on each side.
- Modular design allows you to configure each unit to suit your screen height preference.

All-in-one solution

Cables are concealed within unit, creating the ideal 'all-in-one' solution for wall-mounting screens.

Simple installation

Enable screens to be securely placed in any meeting room, corridor space or public area.

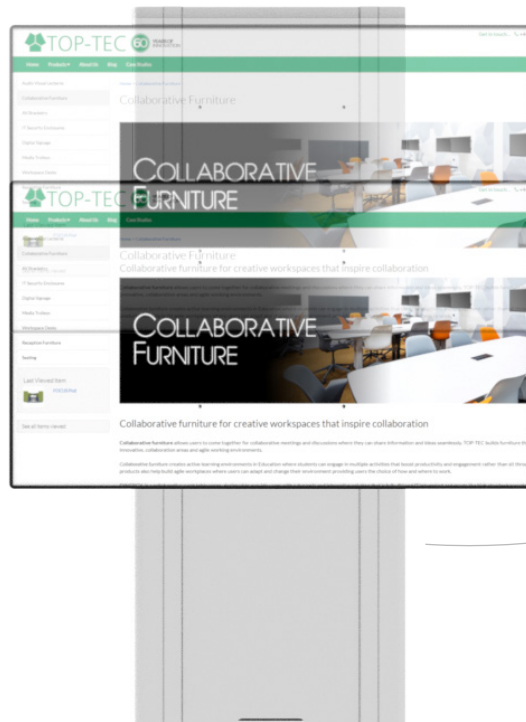

Equality Act compliance

Adjust your screen to suit any user height preference using our manual 'Gravity' height adjustment.

- **Simple screen installation**
 - Fixed to wall / secured using bolts.
 - Cables can be fed through the wall.

- **Gravity Height Adjustment**
Manually adjust the screen height to a comfortable working height.

Up to 800x400 / 95 kg screens

Bespoke connectivity inputs (HDMI / USB / control panel aperture)

Removable panels for maintenance

- **2x 2U rack space on each side**
