

PRODUCT DETAILS
CRUCIBLE

Cyber Forensics Lab

Substantial space for students to work whilst having access to two vertical screens. The lecturer can cast information to screens above eliminating the need for large wall mounted screens.

Crucible has been designed as a perfect all in one IT solution, allowing students to have access to two screens without encroaching on worktop space. Lecturers can also cast content to the top level screens, eliminating the need for large wall mounted screens around the classroom.

These cluster style desks feature complete cable management and an internal 6U rack space for the easy integration of AV/IT equipment.

Features

- 6-seat hexagonal or circular cluster
- Top level tilting screen brackets (24" screens)
- Central screen pole for cable management
- Secure 6U rack space

Save worktop space

Gives students access to two screens without encroaching on worktop space.

Maximise your space

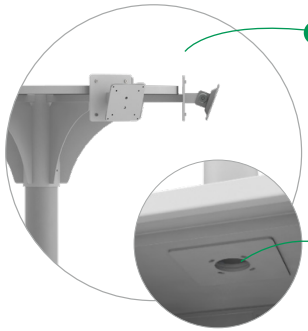

Cluster style shapes help the maximise the use of open plan spaces. Staff can walk around the tables to see how students are getting on using the top screen.

Improve student engagement

Cast content directly to the second screen. Eliminates the need for large wall mounted screens which saves expensive infrastructure costs.

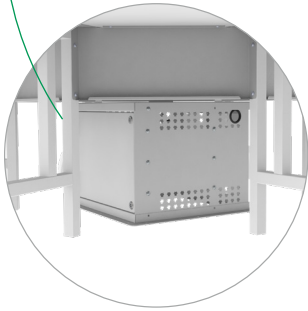

Maximise your worktop space

- Access to 2x screens without encroaching on space of next user.
- Cast content directly to the second screen for improved student engagement.

Cables from screens feed down 100mm tube to rack space

Rack access & cable management

Front & rear access with lockable doors. 6U secure rack space is easily accessible under the table.

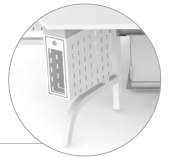

Power & data

Power & data can be fed through ceiling or the floor

"A-frame" Non-PC setups

"Forum" PC setups

Technical Information

Model	Code	Product dimensions (without screens)	MAX screen size
Hexagonal 6-seat	CEH-6	XXXmm(W) x XXXmm(D) x 1500mm(H)	Recommended up to 24"
